Message from the CEO

Dear Colleagues!

Our Code of Conduct is based on Vissim's fundamental principles of business ethics. It summarizes our values and standards and further describes what is expected of both you and the company when interacting with stakeholders and with each other.

I expect everyone working for Vissim at all locations to comply with this Code of Conduct.

Compliance with national, regional and international laws and regulations is mandatory for all our activities.

For us, business ethics extend beyond simple compliance. We shall conduct business with integrity, respecting the cultures, dignity and rights of individuals everywhere we operate.

We shall always strive to maintain high ethical standards and conduct our business in a way that makes people proud to work for Vissim. And we shall strive to ensure that our activities also create local growth in a sustainable manner in each of our host countries, both through local partnerships and transfer of competencies. We encourage all employees and stakeholders to ask questions if

you observe any suspicious behavior and I expect you to report any concerns or possible violations of this Code of Conduct immediately through one of our reporting channels. Vissim depends on our support to ensure we follow up and correct any inconsistencies with our values and standards.

Vissim's culture values honesty, integrity and transparency, and we require each partner and supplier to adhere to the same values. We believe this makes us stronger as we are working towards our vision of improving our future.

Chief Executive Officer

About the Code of Conduct

OUR CODE OF CONDUCT

The Code of Conduct sets out our expectations, commitments and requirements for ethical conduct in our business. The Code of Conduct includes our most important requirements, provides references to more detailed requirements and refers to other helpful resources. However, the Code of Conduct does not remove the need for you to exercise good business judgement.

The Code of Conduct has been approved by the Board of Directors, and is the main governing document in Vissim of how to execute our business. It will be revised from time to time to reflect our activities as we develop as a company and as laws and regulations may change.

WHO DOES THE CODE APPLY TO?

The Code of Conduct applies to the Board of Directors, the management, and all other employees and consultants. We also expect all our business partners and suppliers to act in a manner that is consistent with the principles of the Code of Conduct.

RESPONSIBILITIES

You have a personal responsibility to comply with the requirements set out in the Code of Conduct, applicable laws and other regulations relevant to your work.

Leaders have an additional responsibility in supporting and promoting compliance with the Code of Conduct and related policies, standards and procedures. As a leader you must ensure that activities within your area of responsibility are carried out in accordance with the Code of Conduct, other governing documents and applicable laws.

CONSEQUENCES OF BREACHES

We will not tolerate any breaches of the Code of Conduct.

A failure to follow this Code will be considered as misconduct and may result in disciplinary action being taken against you. All suspected failures of this Code will be investigated.

WHAT THIS MEANS TO YOU:

- Familiarize yourself with the Code of Conduct as well as other governing documents relevant to your work.
- Act comfortably within our ethical standards, and avoid entering into grey zones, which would increase the risk of things going wrong.
- When in doubt, or uncertain about the right action to take, always seek advice from your leader or any other management member.
- As a leader - be a role model for ethical leadership through promotion of compliance and ethics.
- Create an environment where people feel comfortable seeking advice, speaking up and asking questions without risk of retaliation.

Compliance Reporting

Our Code of Conduct sets the tone for how we conduct business globally. Our commitment to always comply with laws and our internal regulations is strong. We have zero tolerance for corruption and we constantly work with building and maintaining trust and credibility with our customers, partners, employees, suppliers, shareholders and other stakeholders.

ENCOURAGING ETHICAL RESPONSIVENESS

At Vissim, we believe in fostering an environment where all employees feel comfortable and encouraged to speak up about any concerns or suspicions of violations. This includes the right to ask questions, seek guidance, raise concerns, and report suspected misconduct. We take these matters very seriously, recognizing that it is the responsibility of all employees to communicate any ethical questions or issues in a prompt and honest manner.

We urge our employees, suppliers, customers and partners to report any suspected violations of laws or our policies to the local operations manager, directly to our CEO or by using our email compliance@vissim.no

HSE Policy & Commitment

We believe that our ability to create long-term, lasting value rests on maintaining high standards of governance, sustainable business practices and operations.

HSE management is critical in our operations to avoid negative impact on the environment, communities and workforce. The consideration of ESG issues, including HSE, is of strategic importance. We integrate technical, economic and HSE considerations into our decision making and operational processes to achieve long-term sustainability of the business and to reduce risk.

We place great importance on ensuring that operations we take part in are safe for the people involved, and aim to minimize the impact on the environment. We constantly strive to manage HSE risk by understanding what can go wrong, minimizing the possibility of it occurring and reducing and mitigating potential consequences. Effective management of HSE risk is about embedding HSE practices into our culture and operating procedures.

A summary of our HSE Policy is presented on the next slide, with a more detailed version [here](#)

WHAT THIS MEANS TO YOU:

- Speak up and stop any work if you feel it is unsafe.
- Report any instances of unsafe practices and/or any dangerous working situation.

HSE Policy & Commitment

Summary of our Health, Safety and Environment Policy

It is Vissim's policy to manage all activities in a responsible manner, without harm to the people involved and in accordance with the principles of sustainable development.

At Vissim, we expect all personnel, whether employees or contractors, to be aware of their role in managing HSE risks subject to our business and, in particular, within their own area of responsibility and influence.

To support this we will:

- Recognize that health and safety are paramount and that no task is so important that it shall be performed at the expense of unacceptable risk to health and safety.
- Ensure that HSE considerations command equal prominence with other business considerations in the decision making process.
- Comply with applicable laws, regulations and other requirements as a minimum, and take the initiative to provide appropriate guidance on HSE issues or implement best practice, where controlling laws or regulations do not exist.

- Consider HSE performance objectives in employee and contractor evaluations, rewards and recognition.
- Work together across functions, and with our partners, contractors and other stakeholders to achieve HSE efficient performance.
- Stop unsafe work and report any instances of unsafe practices and/or any dangerous working situation.
- Use an analytical and fact-based approach to HSE-risk and strive to utilize available information and data in a systematic manner in order to make risk informed decisions.
- Provide adequate resources and training to implement, develop and maintain our HSE-systems.
- Follow-up incidents and contribute to identify measures to prevent recurrence.
- Conduct regular audits of the HSE management system

HSE is a management responsibility requiring visible commitment, leadership and involvement, however, the CEO has the overall responsibility.

Vissim’s solutions detect spillage and environmental hazard early, help increase fuel efficiency through intelligent vessel traffic and marine voyage management, and support the transition to renewable energy by driving down the total costs in that area, thus making our world greener.

Vissim’s products utilize the power of analytics and AI to prevent overfishing due to illegal, unreported and unregulated fishing. Additionally, intelligent usage of sensors detect environmental hazards at an early stage, thus preventing natural disasters from happening.
